

Chapter 1: How Do I...?

Sometimes you just need to know how to do something, without knowing what menu, tool or dialog box you need. This chapter is designed to answer some of your How do I questions. If you're just getting started, make sure you go through the *Installation & Tutorials* book or check out the QuickStart Video Tips.

Click on a category to jump to that section, or scroll down to browse all of the questions. Each question provides a link to the relevant section of the manual.

Ties and Slurs

Graphically, there isn't a difference between ties and slurs, but musically and functionally in Finale, there is a difference. A tie means to hold the pitch for the duration of both notes. A slur means to phrase the two notes together, sometimes on different pitches but always restructured.
